- Slow – no wake speed within 100 feet of the shoreline, moored and anchored watercraft, pier, person, raft, swimming area, and swimmers.
- Maximum speed 55 m.p.h. in all waters.
- Michigan law states that a person operating a vessel shall operate it in a careful and prudent manner and at such a rate of speed so as not to unreasonably endanger the life or property of any person. A person shall not operate a vessel at a rate of speed greater than will permit him, in the exercise of reasonable care, to bring the vessel to stop within an assured clear distance ahead.

Vessels and persons being towed on water skis, water sleds, etc. shall maintain a distance of 100 feet from any dock, raft, buoyed or occupied bathing areas, or vessels moored or at anchor, except when the vessel is proceeding at a slow-no wake speed or when water skiers are being picked-up or dropped off.

The Michigan implied consent law applies for boat operator intoxication testing. Severe fines and/or jail time await those who are observed operating a water craft while intoxicated on alcohol or drugs (legal or illegal).

VIII. OPERATION OF VESSELS

- When two vessels are approaching each other at right angles or obliquely so as to involve risk of collision, the operator of the vessel which has the other on his own port (left) side shall hold his course and speed, and the operator of the vessel which has the other on his own starboard (right) side shall give way to the other by directing his course to starboard so as to cross the stern of the other vessel or, if necessary shall slow, stop or reverse.
